SCENES AND INCIDENTS OF THE MEMORABLE OCCASION.

Rome, April 29.—King Edward visited it Pope Leo at the vatican this afternoon, going direct from the British embassy in a closed carriage. He was accompanied by Colonel Lamb, the British military attache. The carriage bearing the king was followed by another containing members of his majesty's guite. The vatican is perhaps the most ceremonious court of Europe, it is undoubtedly one of the most picturesque, and all the costumes worn there are of medieval times.

At the Vatica

At the Vatican. As King Edward's carriages at 4:20 entered the court of San Damazo, surrounded by the well known loggle of Raphael, and which has been trouden Raphael, and which has been trodden by the feet of every sovereign who has visited Rome with the exception of the present shah of Persia, his majesty was saluted by a battalion of the palatine guards in full uniform. Tattoo was given on the drumheads. There was no music, as there are no papal bands. It is declared that since the grotesque rendering of the German royal anthem by bugles on the occasion of the visit of the emperor of Germany, the experiment of having music has not been repeated.
